Subject: Normal expenses for Horizon - Daily Report
Attachments: Daily Report 9_20_2005.pdf

As you can see in the attached Daily report our daily expenditure is very close to the budget amount (7980 vs. 8100).

It is very important that we prioritize any expense in order to ensure we have money for what it truly needed.
With other words "IF YOU CAN POSTPONE YOU PURCHASE - JUST DO IT"

It is also very important that you keep an eye on projects that relates to you. We MUST stay below 100% on all our projects.
On the other hand it is imperative that expenses related to a project gets charged to that project # (given it's below 100%).
E.g. project 297, (Ventilation Damper Replacement) currently has $2400 left. If any solenoid, actuators, hardware, etc. is needed
for this job please help to make sure it gets charged to project and not normal.

Any questions, please ASK.

Karsten Petersen
Chief Engineer
