OCS-G32306 MC252 #1
Max LOT (Surface MW Equivalent) - 10.25 ppg
Current surface MW - 9.7 ppg
Max useable surface MW (0.3 ppg margin) - 9.95 ppg
Sorry about this confusion Scherie, we have been having some disagreements with the Marianas Ops team on how to report the LOT (surface or downhole) vs how we do it in Exploration. We will ensure in the future the numbers being reported are clearly marked, so we don't get anyone confused.

Thanks for all the help today!
Thank You,
Brian Morel
