Subject: RE: Two sucessful applications of Form-a-set AK by BP in the GoM  
Importance: Normal

As a matter of fact these two success caused Juan Carlos Rojas to tell all of the mud companies that BP will use only Form-a-set for curing mud losses in the GoM. This was the standing order until Form-a-set started to fail. Then came Frac Attack, then EZ Squeeze, then Stress Cage.....

(These were done way back when Brian was still a challenger.) I will also forward the information to Doyle and the mud engineers. I will leave it to you guys to send or not send to the drilling foremen.

The West Bison well was a very shallow large hole application with some interesting pictures included.

John
