Detailed statement regarding incident including who was involved, what, when where and why events took place:

Earlier around 1730 there were issues with the well, had meetings at 1200 till approximately 2130 went to room and took shower, just layed down in bed when heard what sounded like tensioners being bled off only louder, then there was a loud explosion and the rig shook. The lights went out. I jumped up out of bed and ran to door to open to allow light from E-lights in room, started to turn around to get dressed when there was a huge explosion that threw me across the room, jumped up and grabbed clothes and boots. Not dressed and ran into hall there was a really bad gas smell, ran towards stairs in center of rig, the stairs were full of
