Mike,  
We don't have any. The Cajun has 5, the C.R. Lugis has 5 and the Sedco Express has 10.  
Could they get them and send me a quote for them and I'll either make out a new job for them or put them on the same job for the sem.

Thanks,

**Owen McWhorter**

I'll have to check. You wouldn't happen to have the part number handy, would you ?

Owen,

Do you have any spare SEM batteries? We need some for your SEM at Cameron

Mike / Geoff,

Please see the comments below; as per Dana the rig was/or has batteries on that they are going to replace. Please advise...once this is resolved we can schedule a FAT witness.

Stan:

The batteries on the Horizon SEM are not good and as per Dana, he never wanted to change the batteries. So for the FAT we need to ask the Customer to come up with some batteries or else we will use some from other projects, just for the FAT. But we need to ask the Customer whether they have spare on the rig.

Please advice.

Thanks and Regards,

Abhay Mane
