Bill,

I don't care what is going on in Houston but the people that MATTER (BP management) know that this is not a WWCI show - it is BP. This is NOT what we recommended but we don't need to go around and publicly state that. We will support them as best we can & as long as we do not harm anyone we will be part of their team.

There is a growing criticism in the war room from the Brits that this cowboy show with WWCI is out of hand. It to the point that Thomas (Ole's Norwegian replacement) is the only technical person. I'm suprised to see the cultural boundaries starting to rear up. When Kurt and I get told we're not part of the brain trust, I about laughed outloud.

Nevertheless, they don't want to hear the truth so it doesn't matter HOW you bring it up.

Fustrating - hope your Friday's been better than mine.
