### Junk-shot, Bullhead and Momentum Kill Peer Review Terms of Reference

**Project Description**

Junk-shot, Bullhead and Momentum Kill Peer Review - Participate in an overview of presented information and resources required for successful implementation of stated objectives and to assist with the identification of risks associated with prescribed program. Additionally, identify any support or considerations which may be required. Provide constructive feedback to BP through an engaged participation with industry experts assembled from various well control points of view.

**Scope**

Finalized: Assembly of a well defined team to review an evaluation of information in support of the Project Description. The Peer Review Team will assist with identification of resources and programs required to progress successful completion of the stated program. This information will be collected and communicated to BP leadership and planning teams.
