

## **Rule 30(b)(6) Notice to the United States**

### **Topics Assigned to Admiral Allen**

Topic 6. Knowledge of the role and actions for the United Command, as created and implemented pursuant to the National Incident Management System, in Source Control Efforts.

Topic 7. Your knowledge of the role and actions of the office of the National Incident Commander in Source Control Efforts.

Topic 27. Your knowledge of and involvement in the identification, design, planning, fabrication, testing, selection, and/or approval of the use of relief wells as a means to stop the flow of oil and gas from the MC252 Well.

Topic 29. Your knowledge of and involvement with the selection, testing, monitoring, approval, and use of subsea or surface dispersants at or in the area immediately above the MC252 Well as those matters affected or relate to Source Control Efforts and any effort to quantify the flow of hydrocarbons from the MC252.

Topic 97. The EPA's role and participation in the process of considering or determining the amount or type of dispersants to be applied in connection with the release of hydrocarbons from the MC252 Well, and the methods, calculations, analyses, estimates, factors, data and assumptions considered or employed by the EPA in connection with the role.
